# Presentation of the sustainable finance observatory

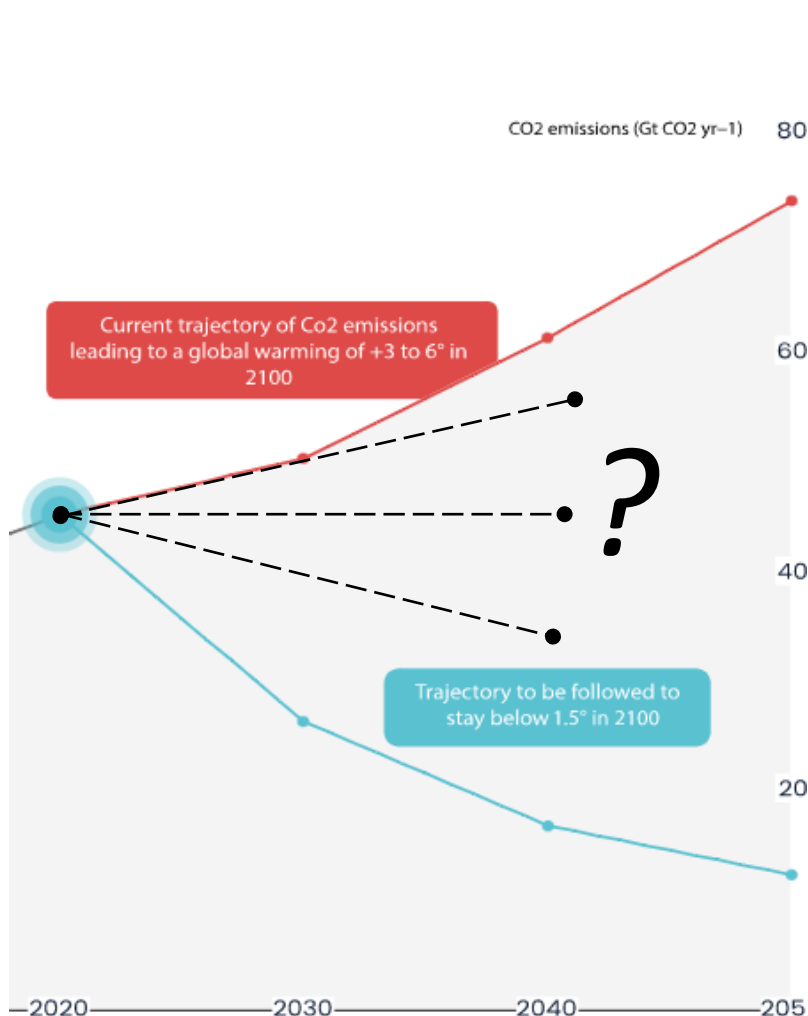

# How to track the alignment of the financial flows into the Paris alignment's Goals ?

RTE, French transmission system operator

Rte

# From commitments to the evolution of financial flows

**At COP21, Member States' representatives committed to redirecting their financial flows towards a low carbon economy!**

## Extract from the Paris Agreement – Article 2C

"This Agreement, by strengthening the implementation of the Convention, including its objective, aims to enhance the global response to the threat of climate change, in the context of sustainable development and efforts to eradicate poverty, including: [...] (c) Making financial flows consistent with a low greenhouse gas emissions trajectory and climate resilient development."

7 YEARS AFTER THE COP21,  
IS THE FRENCH FINANCIAL SECTOR  
ON THE RIGHT TRACK?

**BSERVATOIRE**  
de la finance durable

# Declaration of Place / 2 July 2019

On the occasion of the marketplace meeting held with the Minister of the Economy and Finance, Bruno Le Maire, the main organisations and professional federations representing the Paris financial marketplace announced, in a joint declaration, **to make new commitments in favour of the fight against climate change** and to contribute to the objective of carbon neutrality by 2050.

## Stakeholder commitments

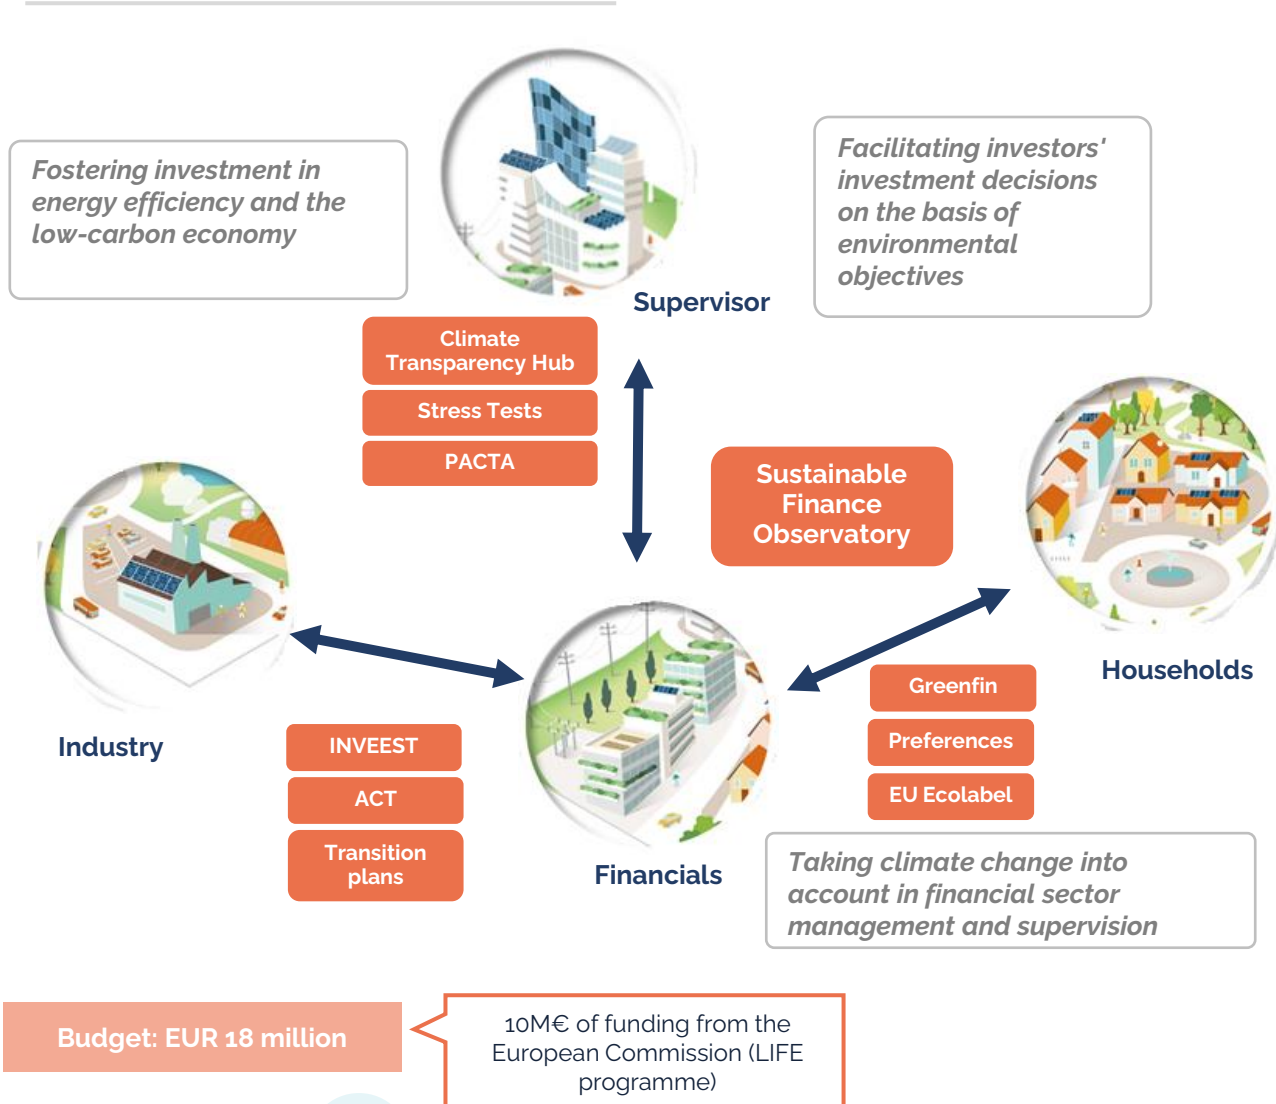

Encourage their members to **adopt a coal strategy** (global disengagement timetable) and to report on it in **their non-financial reporting** for the year 2020

Continue **methodological work** in collaboration with ESAs on **assessing portfolio exposure to climate risks** and **aligning investment portfolios** with a 2°C scenario

Encourage the monitoring of commitments through the **creation of an observatory** of the achievements and actions of the actors of the Paris financial centre in terms of green and sustainable finance

The Paris financial centre will **promote the dissemination and open source standardisation** of these methodologies

# Finance Climact Project

## Role

- Its role is to respect the strategic positioning, the deadlines and the financial reporting of the project at the European Commission level.
- Some of the actions of the Finance ClimAct project will allow the formulation of methodological proposals on climate commitment and target setting.

## Composition

- ADEME (coordinator)
- CGDD
- AMF
- ACPR
- Greenflex
- I4CE
- 2Dii
- Finance for Tomorrow

## Meeting pace

- Monthly coordination point with AMF and ACPR and federations
- Monthly meeting within the framework of ADEME's Workpackage
- Ad hoc workshop in connection with the Observatory's work

# Scientific and Expertise Committee

## Role

- Ensures the integrity and scientific rigour of the Observatory
- Reviews the principles and methods adopted for the presentation of these data
- Analyses the methodological proposals formulated by the Finance ClimAct project and others
- Makes recommendations to improve the quality and relevance of the data published on the Observatory's website

## Composition

### Presidency

Président

Pierre-Louis Lions

Secrétaire

Stéphane Voisin

### NGO / Think tank College

Associée, EY

Caroline Delerable

## Meeting pace

The Committee meets in full plenary three times a year.  
Through working groups, which allow for the elaboration of recommendations, members can participate in more regular working meetings (once or twice a month)

# How to monitor the transformation of financial actors towards sustainable finance and the achievement of the objectives of the Paris Agreement

Paris financial  
Place statement  
and  
announcement  
by Mr. Le Maire  
in July 2019

## Launch of the Sustainable Finance Observatory at the 6th Climate Finance Day (2020)

The Observatory reports on the achievements and actions of the stakeholders of the Paris financial centre in the field of green and sustainable finance for the insurance sector, banks, private equity, management companies and specialised companies.

### Steering Committee of the Observatory

Ensures the proper conduct of the project

En tant qu'observateur :

## Governance of the Sustainable Finance Observatory

### Steering Committee of Finance Climact

Defines the overall strategy of the Observatory

ADEME (coordinator)	I4CE
CGDD	2Dii
AMF	F4T
ACPR	Greenflex

### Scientific and Expert Committee

Ensures the rigour and integrity of the Observatory

Présidence :  
Pierre Louis Lions

# Data monitored by the Observatory

# Data Collection

1

2

## TWO TYPES OF DATA COLLECTED

### MONITORING OF INDIVIDUAL COMMITMENTS

#### PROCESS

1. Personalized surveys send by The Observatory
2. Direct collection from ESG Teams
3. Analysis of the commitments

## Review of commitments and exchanges with stakeholders

1

Analysis and review through 5 criteria

- Compliance with the minimum criteria is a guarantee of readability and understanding.

2

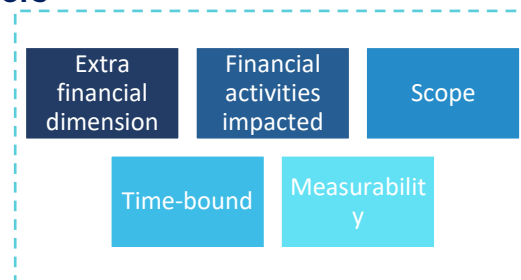

Reading grids filled in with available public information

- A reading grid has been developed for each category of commitment.
- This analysis through target indicators facilitates their understanding.

3

Monitoring extracted from the actors' website

- This allows for the monitoring of commitments

Monitoring

Support actors to make binding commitments and ensure their implementation through enhanced/open monitoring.

## TWO TYPES OF DATA COLLECTED

### TRANSFORMATION OF FINANCIAL PRACTICES AND FLOWS

#### PROCESS :

1. Annual surveys send by professional federations
2. Collection by professional federations
3. Aggregation of data by the Observatory

## KEY FIGURES

### Transition to a low-carbon economy

Loan for households related to energy-efficiency works/ Green Real Estate  
Green infrastructures  
Funding of renewable energy projects  
Low-carbon Funds / Environment Thematic  
Green bonds  
Greenfin labelled funds

### Coal Exit

Exposure to coal and disinvested amounts % of financial companies that have a carbon strategy  
Type of carbon strategy : commitment / exclusion  
Statistics on relative and absolute thresholds

### Range of responsible products

Greenfin, ISR and / or Finansol labelled funds  
Green, social, sustainable and sustainability linked bonds  
Products responding to Art 8 and 9 of the SFDR regulation  
Micro-credits  
Financed electric and hybrid vehicles

### Process/ Responsible management

Amount and % of stocks that follow ESG criteria  
Exclusion policies  
Shareholder engagement  
Initiative memberships and international coalitions : ICF, Climate Action 100+, PRI, PSI

# Ambition : spread the initiative globally

## THE ONE PLANET DATA HUB

AN OPEN PLATFORM AGGREGATING DATA FROM ALL  
VOLUNTARY COLLECTIVE INITIATIVES

### Work towards common definitions

Common standards are needed to harmonize data, aggregate and monitor global flows

An UNEP-FI network, the FC4S, support the initiative and help engaging new countries : Ireland already took the commitments to lunch an Observatory on the French example.

### Monitor global shift of practices

The objective of carbon neutrality only makes sense at a global scale

**Ensure accountability and transparency**  
Monitor commitments of the financial sector

A SUSTAINABLE OBSERVATORY NETWORK  
PROMOTE ACCOUNTABILITY OF FINANCIAL SECTOR'S  
COMMITMENTS TOWARD THE ECOLOGICAL TRANSITION

**Sommet Climate Chance  
Europe 2022**

Cité des Congrès, Nantes, France

# Thank you for your attention !

**OBSERVATOIRE**  
de la finance durable

**The Sustainable Future  
begins in Paris**

This project has received funding from the European Union's LIFE program under grant agreement LIFE18IPC/FR/000010 A.F.F.A.P. The European Commission is not responsible for any use that may be made of the information it contains.
