

## CODATU XVIII CONFERENCE

## CETUD - 2ND TERRITORIAL CONFERENCES OF URBAN MOBILITY

## CLIMATE CHANGE SUMMIT - AFRICA

4 TO 6 OCTOBER 2022

[Climate Chance](#) is launching a call for contributions of best practices in climate action, **at the global level and in particular for the African continent.**

We invite you, **local actors involved in the fight against climate change in Africa**, to share your initiatives and innovations on the continent.

This call for contributions aims to identify good, innovative and replicable practices on the largest scale in Africa and on a global scale. **You are a local authority, a company, an association, a trade union, a scientific organization, a youth or women's organization, a farmer's organization, an educator, a citizen, submit your climate action project and join our global climate action community!**

### Participate in the call for projects launched by Climate Chance to

- Strengthen the mobilization of non-state actors involved in key climate action sectors by sharing your experience, successes and challenges.
- Enrich the contents and programming in Dakar at the [Week for Sustainable Mobility and Climate 2022](#) by presenting concrete achievements.
- Contribute to the [Cartography for Climate Action](#) in the Climate Chance Action Portal and highlight initiatives from the African continent.

**We invite you to participate in this call for contributions if you have initiatives that address the following climate issues:**

*Please select a maximum of 3 areas of focus. If your area of focus is not listed, please clarify it when describing your initiative.*

- Adaptation - Resilience
- Agriculture - Food
- Biodiversity - Forests - Land use
- International cooperation
- Water
- Education - Climate training
- Energy
- Climate finance
- Gender
- Multi-level governance
- Housing - Sustainable construction
- Mobility - Sustainable transport
- Oceans - Coastline
- Planning - territorial development - Sustainable cities
- Economic Transition (sustainable industries, circular economy, waste)

The selected actions will have a place at the Pitch Corner of the **Week for Sustainable Mobility and Climate 2022 in Dakar from the 4th to the 6th of October 2022** and/or published on the Cartography for Climate Action

**To contribute: submit your initiatives before August 31, 2022 on :**  
<https://www.climate-chance.org/en/add-project/>

## **Practical Information**

### **Selection process**

The contributions will be analyzed by the Climate Chance scientific committee. This committee is composed of members of the Climate Chance Association and organizers of the Week for Sustainable Mobility and Climate 2022. You may be asked to complete your initial proposal if necessary. The scientific committee will be in charge of selecting the contributions and building the program according to the selected contributions. This committee will take care to maintain a good balance between the different thematic entries. Gender and geographical balance will also be important.

Contributions not selected for the Dakar Summit events can be posted on the Action Map available on the Climate Chance website.

### **2 requirements for contribution**

- **Be a non-state actor:** local communities and authorities, companies, associations, trade unions, professional federations, non-governmental organizations, scientific bodies, donors, citizens involved in climate action in Africa, youth and women's organizations, farmers' organizations

- **Have an ongoing project that integrates one of the themes listed:**  
Adaptation - Resilience, Agriculture - Food, Biodiversity - Forests - Land use, International cooperation, Water, Education - Climate training, Energy, Climate finance, General, Multi-level governance, Habitat - Sustainable construction, Mobility - Sustainable transport, Oceans - Coastline, Planning - Territorial development - Sustainable cities, Economic transition (sustainable industries, circular economy, waste)

### Conditions for the Contributions

- The deadline for submission of contributions is **August 31, 2022**.
- Contributions will be reviewed and selected by the Climate Chance Scientific Committee.
- The selected contributions will be contacted from the first week of September.
- Contributors are responsible for registering for the Week for Sustainable Mobility and Climate 2022, paying for their registration fees, travel and accommodation and all other related expenses.
- The actors whose contributions have not been selected will be informed by individual email; no compensation can be requested from the Climate Chance Association.
- The selected contributors authorize The Climate Chance Association to reuse and communicate their work, in accordance with copyright law, following the summit.
- Le Comité d'Organisation du Sommet Climate Chance est la seule entité de prise de décision pour toutes les questions concernant le sommet.

### Where can I make my contribution?

Your contribution must be posted before **August 31, 2022**, on the dedicated platform, directly accessible on: <https://www.climate-chance.org/en/add-project/>
